

QUOTES RELEVANT TO ENGINEERS

We thought the following quotes were good reminders of why we became engineers and would like to share them with you.

"Scientists dream about doing great things, Engineers do them". James Michener
(US Novelist).

"Engineering is the conscious application of science to the problems of economic production."
H.P. Gillette (1910)

"Engineers like to solve problems. If there are no problems handily available, they will create their own."
Scott Adams (American Cartoonist)

"The engineer's first problem in any design situation is to discover what the problem really is."
Unknown

"You do not really understand something unless you can explain it to your grandmother."
Albert Einstein

"Furious activity is no substitute for understanding."
H.H. Williams

... AND FOR OUR CLIENTS

"You can have it good, fast, or cheap: pick any two." "The Project Manager's Maxim".
